

Contents

Vol. 1, No. 9, 2004

Brief Reviews

- Principal problems in Bose-Einstein condensation of dilute gases
V.I. Yukalov 435
-

Interaction of Laser Radiation with Matter

- A proposal for high resolution photolithography using optical limiters
A. Rostami and A. Rahmani 462
-

Nonlinear and Quantum Optics

- Nano-optical dimension of coherent anti-Stokes Raman scattering
A.M. Zheltikov 468
-

Fiber Optics

- Multimode fiber lasers based on Bragg gratings and double-clad Yb-doped fibers
*A.S. Kurkov, D.A. Gruk, O.I. Medvedkov, V.M. Paramonov,
E.M. Dianov, M.V. Yashkov, N.I. Vechkanov, and A.N. Guryanov* 473
-

Laser Methods in Chemistry, Biology, and Medicine

- Photodynamic therapy of pigmented melanoma B16 using sterically stabilized
fullerenosomes
M. Babincová, P. Sourivong, D. Leszczynska, and P. Babinec 476
-

Information

- 14th International Laser Physics Workshop (LPHYS'05) (Kyoto, July 4-8, 2005) 479
-
